

# PERRY JOHNSON REGISTRARS, INC.

## *Advantages of Becoming a PJR Auditor*

1. A personal scheduling staff will assist you with your project management. They coordinate the logistics of audit assignments, including travel and audit prep. A relationship with your scheduling coordinator means the ability to increase or decrease your audit schedule as you see fit.
2. Pre-paid expenditures – such as **airfare**, **hotel** and **rental car** can alleviate the burden of a large pre-audit investment.
3. Local assignments – in addition to the service of providing our clients with a highly-skilled auditor, we also hope to reduce their travel expenses with our vast network of local auditors. For you, this means an improved quality of life and more billable hours by reducing your travel time.
4. A PJR provided travel agent, friendly and auditor oriented, who is experienced and willing to coordinate all of your travel arrangements.
5. PJR boasts a risk-based auditor training and development program. Whether you are new to auditing or a seasoned auditor looking to contract with a new certification body, our program will give you the skills needed to succeed.
6. Paperwork guidance and report assistance – PJR workbooks are designed for brevity and efficiency and our support staff is trained to provide you with the knowledge to complete your audits to the highest degree of quality. We also have a training program for those proven auditors to become part of our executive committee, in which you can work from the comfort of home to review the reports of your fellow auditors.
7. Access – We provide our auditors with an account in our easy-to-navigate database for quick access to any information you require regarding your audit assignment, PJR documentation, the audit process, and PJR updates. You may also use this database to store your information keeping you organized and informed.
8. Freedom – PJR sub-contractors are not required to be exclusive to PJR, which means you are able to build relationships with other Certification Bodies and businesses.
9. Value – We are listed as the number one registrar in North America as evidenced by the IAAR (Independent Association of Accredited Registrars). We work hard to improve and sustain a quality reputation among our peers, accreditation bodies and present and future clients.
