What is ISO/IEC 42001?

ISO/IEC 42001 is a standard related to the management of artificial intelligence systems. It provides guidelines for organizations to establish, implement, maintain, and continually improve an AI management system. This standard is applicable regardless of the organization's size, type, or nature. It focuses on responsible AI use and management, covering aspects such as leadership, planning, operation, performance evaluation, and continual improvement in the context of AI systems. This standard aims to help organizations navigate the unique challenges and opportunities presented by AI technology.

About ISO/IEC 42001

What is an artificial intelligence management system?

What are the key features?

Who is ISO/IEC 42001 for?

What are the benefits of implementing ISO/IEC 42001

How does ISO/IEC 42001 relate to other management systems standards?

How does ISO/IEC 42001 guide organizations toward trustworthy AI?

Business Strategy

PRODUCERS

Why should AI producers want to get certified?

USERS

Why should AI users want to get certified?

Certification Process

HOW DOES AN ORGANIZATION GET CERTIFIED TO ISO/IEC 42001:2023?
