# WEBINARS

## PAST WEBINARS

### UNDERSTANDING THE STAGE 1 AUDIT PROCESS

---

Curious about what to expect during a Stage 1 Audit? Join PJR for an informative overview of this critical first step in the certification journey. We'll walk you through the purpose, process, and key elements, so you can approach your Stage 1 Audit with clarity and confidence.

*Presented by PJR QMS & ABMS Program Manager Joseph Krolkowski.*

**WEDNESDAY, JUNE 10, 2026 AT 11:00 AM ET**

## FUTURE WEBINARS

### GETTING TO KNOW THE NEW ISO 9001:2026 STANDARD

---

With the recent publication of the FDIS 9001 it's time to get ready for ISO 9001:2026. Please join us for an in-depth review of the changes being made to the ISO 9001 standard and for key information on how the transition process will be handled.

*Presented by PJR QMS & ABMS Program Manager Joseph Krolkowski.*

**WEDNESDAY, JULY 22, 2026 AT 11:00 AM ET**

# PJR CLIENT REMINDERS

## RESCHEDULING AUDITS & SCHEDULING REVISITS:

---

It is imperative that the rescheduling of audits, scheduling of revisits, etc. are completed with your scheduler. This is especially important for audit scheduling or changes within 21 days of the intended audit date. Auditors will not accept audit dates or agree on new plans without your scheduler being involved. This helps prevent unnecessary fees, billing issues, F-27 delays, etc.

## COMPANY CONTACT CHANGES:

---

It is required that companies notify a PJR representative of any changes to your company contacts - for both audit scheduling and accounting purposes. Ensuring that our records are accurate helps us maintain effective communication and streamline our processes, minimizing any potential disruptions to our services.

If there have been any recent changes to your company contacts, or if you anticipate any upcoming changes, please inform your designated PJR representative as soon as possible

## UPDATED TERMS & CONDITIONS:

---

Be sure to download the latest version of PJR's Terms and Conditions. The most up-to-date copy is always available on our Document Download

(link: <https://www.pjr.com/registration-document-download>) page.

Stay informed and stay compliant!

# Tradeshows

## Upcoming Tradeshows

### Mobile Disrupt 2026

Perry Johnson Registrars, Inc. will be attending **Mobile Disrupt 2026 on July 7–8, 2026**, at the Fontainebleau Miami Beach, FL. Be sure to connect with Courtney Smith to learn more about PJR's certification services and how we can support your organization's compliance and quality goals. We look forward to seeing you there!

## Detroit Tigers Home Opener

---

In April, we celebrated the Detroit Tigers Home Opener in style throughout the office. From hot dogs, peanuts, and Cracker Jack to team apparel and Tigers colors, everyone joined in on the fun and showed their team spirit while enjoying the excitement of baseball season.

## Administrative Professionals Day

---

In April, we celebrated the administrative professionals whose dedication and expertise helped keep our teams organized, efficient, and moving forward every day. Their hard work, attention to detail, and ongoing support made a lasting impact across our organization. We are grateful for everything they did and for the essential role they played in our continued success.

**Dallen Rands**  
Canada Company Manager

# Transitioning Standards:

As organizations look ahead to upcoming certification changes, Perry Johnson Registrars, Inc. (PJR) is here to support clients through important standard transitions across key management systems.

## Upcoming Transitions:

- **ISO 9001:2026** – Quality Management Systems
- **ISO 14001:2026** – Environmental Management Systems
- **FSSC 22000 Version 7.0** – Food Safety System Certification Scheme
- **ISO 22000:2027** – Food Safety Management Systems

These updates represent an important step forward in strengthening consistency, sustainability, and food safety performance across global supply chains. As requirements evolve, organizations are encouraged to begin early transition planning to ensure sufficient time for gap assessments, system updates, training, and internal readiness.

PJR recommends clients proactively review upcoming changes, assess the impact to existing management systems, and engage internal teams to support a structured and timely transition process. Early preparation helps reduce disruption and supports a smooth certification journey.

Our team remains committed to guiding clients through every stage of transition with clear communication, technical expertise, and practical audit support.

If you have questions about your upcoming standard updates or would like assistance planning your transition strategy, please contact us at [pjr@pjr.com](mailto:pjr@pjr.com).

# Meet the Front Desk

Angela Cannon (Left)

Mia Morris (Right)

When you call our headquarters, chances are the first friendly voice you hear belongs to our incredible front desk team, Angela Cannon and Mia Morris. From managing busy phone lines to supporting employees and clients alike, their dedication never goes unnoticed. In a world increasingly driven by automation, we believe there is still tremendous value in real people answering the phone. A warm greeting, a helpful conversation, and a personal touch can make all the difference!

## Quality Vision – A New Era of Audit Communication and Transparency

Perry Johnson Registrars, Inc. is introducing Quality Vision (“Vision”), a secure online client and auditor portal designed to enhance communication, collaboration, and transparency throughout the certification process. Built to improve efficiency and consistency, Vision centralizes key audit activities into one streamlined platform, creating a more seamless experience for auditors, clients, and PJR’s technical team.

Beginning in Q1 2026, several core audit functions will be managed directly within Vision, including the issuance of nonconformances, corrective action preparation and submission, and secure hosting of audit documentation such as audit plans and reports. Additional capabilities will continue rolling out throughout 2026, including audit program management, complaint and dispute management, and expanded reporting tools.

These enhancements are intended to reduce administrative burden, improve turnaround times, and strengthen collaboration across the certification process. To support users as they transition to the platform, PJR has also developed a series of short, on-demand training videos available on our [YouTube channel @PJR-INC.](#)

Users can access the Vision Portal at: [vision.pjr.com](https://vision.pjr.com)

# A Landmark Shift in Korea: PJR's Global Readiness in Action

The international electronics recycling landscape is experiencing a massive shift, as demonstrated by South Korea's newly updated Resource Circulation Act. This legislative expansion mandates that electronics recyclers and brokers operating within the country achieve the stringent R2v3 (Responsible Recycling) certification to maintain eligibility for high-value public procurement and government IT asset disposition (ITAD) tenders. The challenge: there is nearly zero capacity to audit and certify to this standard in Korea.

At Perry Johnson Registrars, Inc., we pride ourselves on our unparalleled flexibility and our innate ability to help with certification needs, anywhere in the world. To support this market evolution, we are proud to highlight our global reach and localized digital footprint with the launch of our dedicated website: <https://pjr.co.kr>. Because PJR maintains an extensive, highly responsive network of auditors strategically positioned throughout the region, we are uniquely equipped to pivot instantly to our clients' needs. Our cross-border operational infrastructure means we can streamline audit scheduling and deploy world-class expertise at a moment's notice anywhere in the world.

# Client Spotlight: JSW Steel USA

At JSW Steel USA, large-scale steel manufacturing meets advanced technology and disciplined operational management. As a leading domestic steel producer, the company plays a critical role in supporting U.S. industries that rely on high-quality steel for infrastructure, energy, transportation, and heavy equipment applications.

With major manufacturing operations in Mingo Junction, Ohio and Baytown, Texas, the company produces a wide range of steel products including steel slabs, hot rolled coil, wide plate, and large-diameter LSAW (DSAW) line pipe. The Baytown facility runs one of the widest plate mills in the United States, capable of rolling plate up to 156 inches wide and up to 6 inches thick to support demanding industrial applications.

## **Strengthening Operations Through Certification**

Across its two-site manufacturing footprint, ISO certification has helped strengthen the management systems that govern quality, environmental performance, and operational discipline at JSW Steel USA. Certification supports consistent execution across complex manufacturing processes while reinforcing traceability, compliance, and reliability for customers running in safety-critical and regulated industries.

For large capital-intensive operations like steel manufacturing, certification provides an important framework for continuous improvement and risk reduction. Structured systems for process control, documentation, and corrective action help ensure that performance expectations are met across the entire product lifecycle.

## **A Collaborative Partnership with Perry Johnson Registrars, Inc.**

JSW Steel USA values its partnership with Perry Johnson Registrars, Inc. (PJR), noting that the audit process has been well aligned with the realities of operating in a heavy-industrial environment.

PJR's audits provide thorough, standards-based evaluations that help validate JSW Steel USA's systems while offering valuable feedback that supports year-over-year improvement. This collaborative approach reinforces a disciplined management structure that is essential for maintaining high performance in complex manufacturing operations.

## **Scale, Technology, and Domestic Manufacturing**

JSW Steel USA distinguishes itself through its scale, advanced technology, and strong commitment to domestic manufacturing. At the Mingo Junction facility, the steelmaking platform includes the largest and most modern Consteel™ electric arc furnace (EAF) technology in North America, supporting efficient melting and consistent metallurgical control. Planned upgrades will enable slab production in thicknesses up to 12 inches, expanding capabilities for demanding plate and pipe applications.

Meanwhile, the Baytown operation combines wide plate rolling capacity with a large-diameter LSAW pipe mill capable of supporting both high-volume programs and specialized custom orders. Across the company's footprint, the vast majority of products are melted, cast, and rolled in the United States, helping customers meet "melted and manufactured in the U.S." and Buy America requirements.

JSW Steel USA operates as a subsidiary of JSW Steel Ltd., the flagship steel business of the JSW Group, and employs more than 800 people across its U.S. operations.

### Investing in the Future

Looking ahead, JSW Steel USA continues to invest in modernization and expanded capabilities. The company has announced a **\$145 million investment** at its Mingo Junction facility, including a vacuum tank degasser and slab caster upgrades with dynamic soft reduction technology to support domestically produced steel products.

At the Baytown facility, a **\$110 million plate mill modernization project** is underway. These investments are part of a broader portfolio of improvements expected to be completed and commissioned by FY26, further strengthening domestic steel supply and manufacturing capability.

### A Commitment to Safety, Quality, and Continuous Improvement

At its core, JSW Steel USA's philosophy is rooted in safe operations, disciplined execution, and continuous improvement. The company prioritizes investments in people, systems, and processes to deliver reliable manufacturing outcomes while supporting long-term relationships with customers and the communities where it runs.

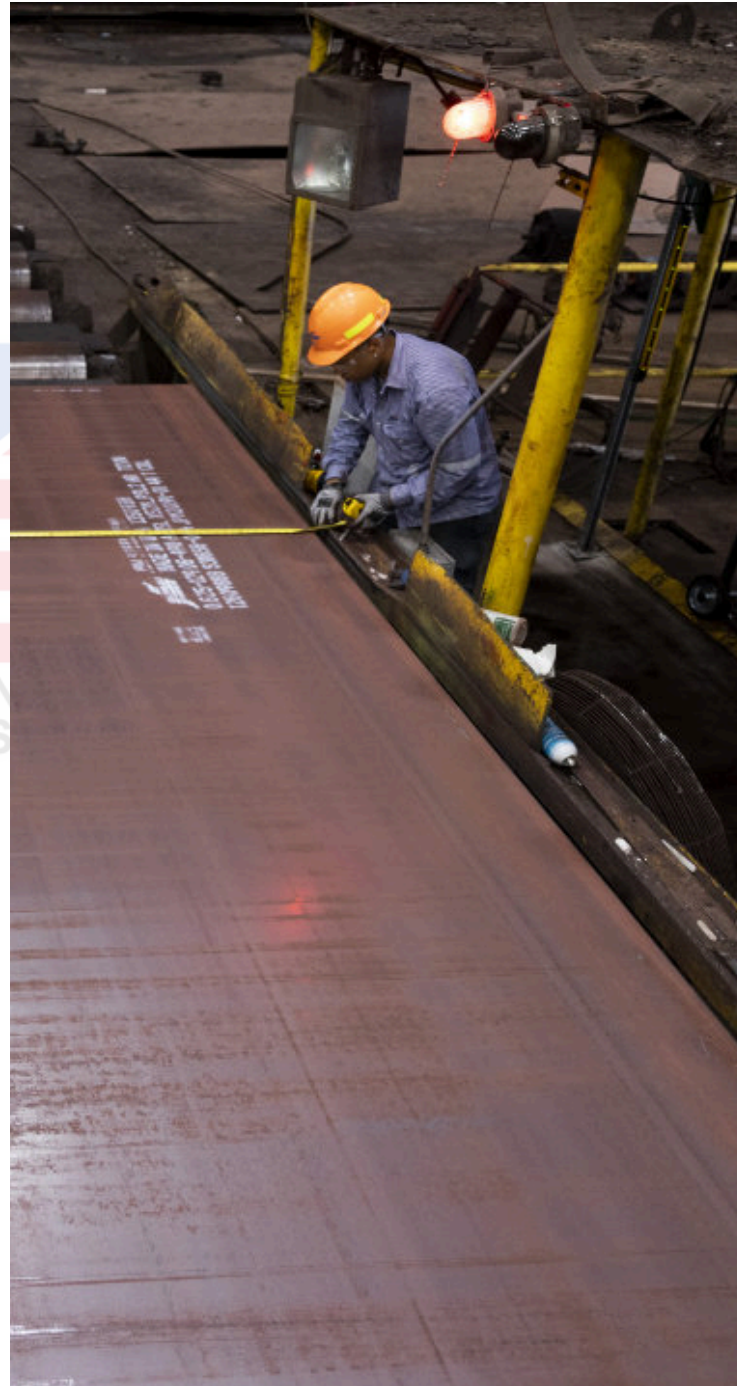

Through its continued partnership with PJR and its commitment to strong management systems, JSW Steel USA is well positioned to support the evolving needs of U.S. industry while keeping high standards for quality, environmental performance, and operational excellence.

# PJR Supports Organizations on Their CMMC Journey

---

As cybersecurity requirements continue to expand throughout the Defense Industrial Base, organizations handling Controlled Unclassified Information (CUI) must demonstrate compliance with the Cybersecurity Maturity Model Certification (CMMC) program. As an authorized certification body, PJR plays a key role in helping defense contractors navigate the certification process through independent audits and certification services. With experienced auditors and a commitment to integrity, PJR helps organizations demonstrate cybersecurity compliance, strengthen data protection practices, and maintain eligibility for Department of Defense contracts.

## Job Opportunities

Looking for a career in certification, auditing, or quality management? PJR is hiring! Join a global leader in third-party certification and make an impact helping organizations improve and grow.

Email our recruiting team for more information  
[rbrickner@pjr.com](mailto:rbrickner@pjr.com)

# Explore PJR's Full Range of Programs

At PJR, we provide certification across a wide range of internationally recognized standards to help organizations improve performance, ensure compliance, and build trust.

**Our most popular programs include:**

**ISO 9001** – Quality Management

**IATF 16949** – Automotive Quality

**AS9100** – Aerospace Quality

**ISO 14001** – Environmental Management

**ISO 45001** – Occupational Health & Safety

**FSSC 22000 / ISO 22000** – Food Safety

**ISO/IEC 27001** – Information Security Management Systems

**R2v3** – Responsible Recycling Standard

**CMMC**- Cybersecurity Maturity Model Certification

**...and many more.**

From quality and safety to environmental and food standards, PJR supports businesses with globally recognized certifications that make a difference

## HAVE YOU CHECKED OUT OUR BLOG?
