Top 10 Mistakes When Implementing ISO/IEC 27001

(1)

Lack of Management buy-in

(2)

Scope not fully defined

(3)

Risk Assessment not completed

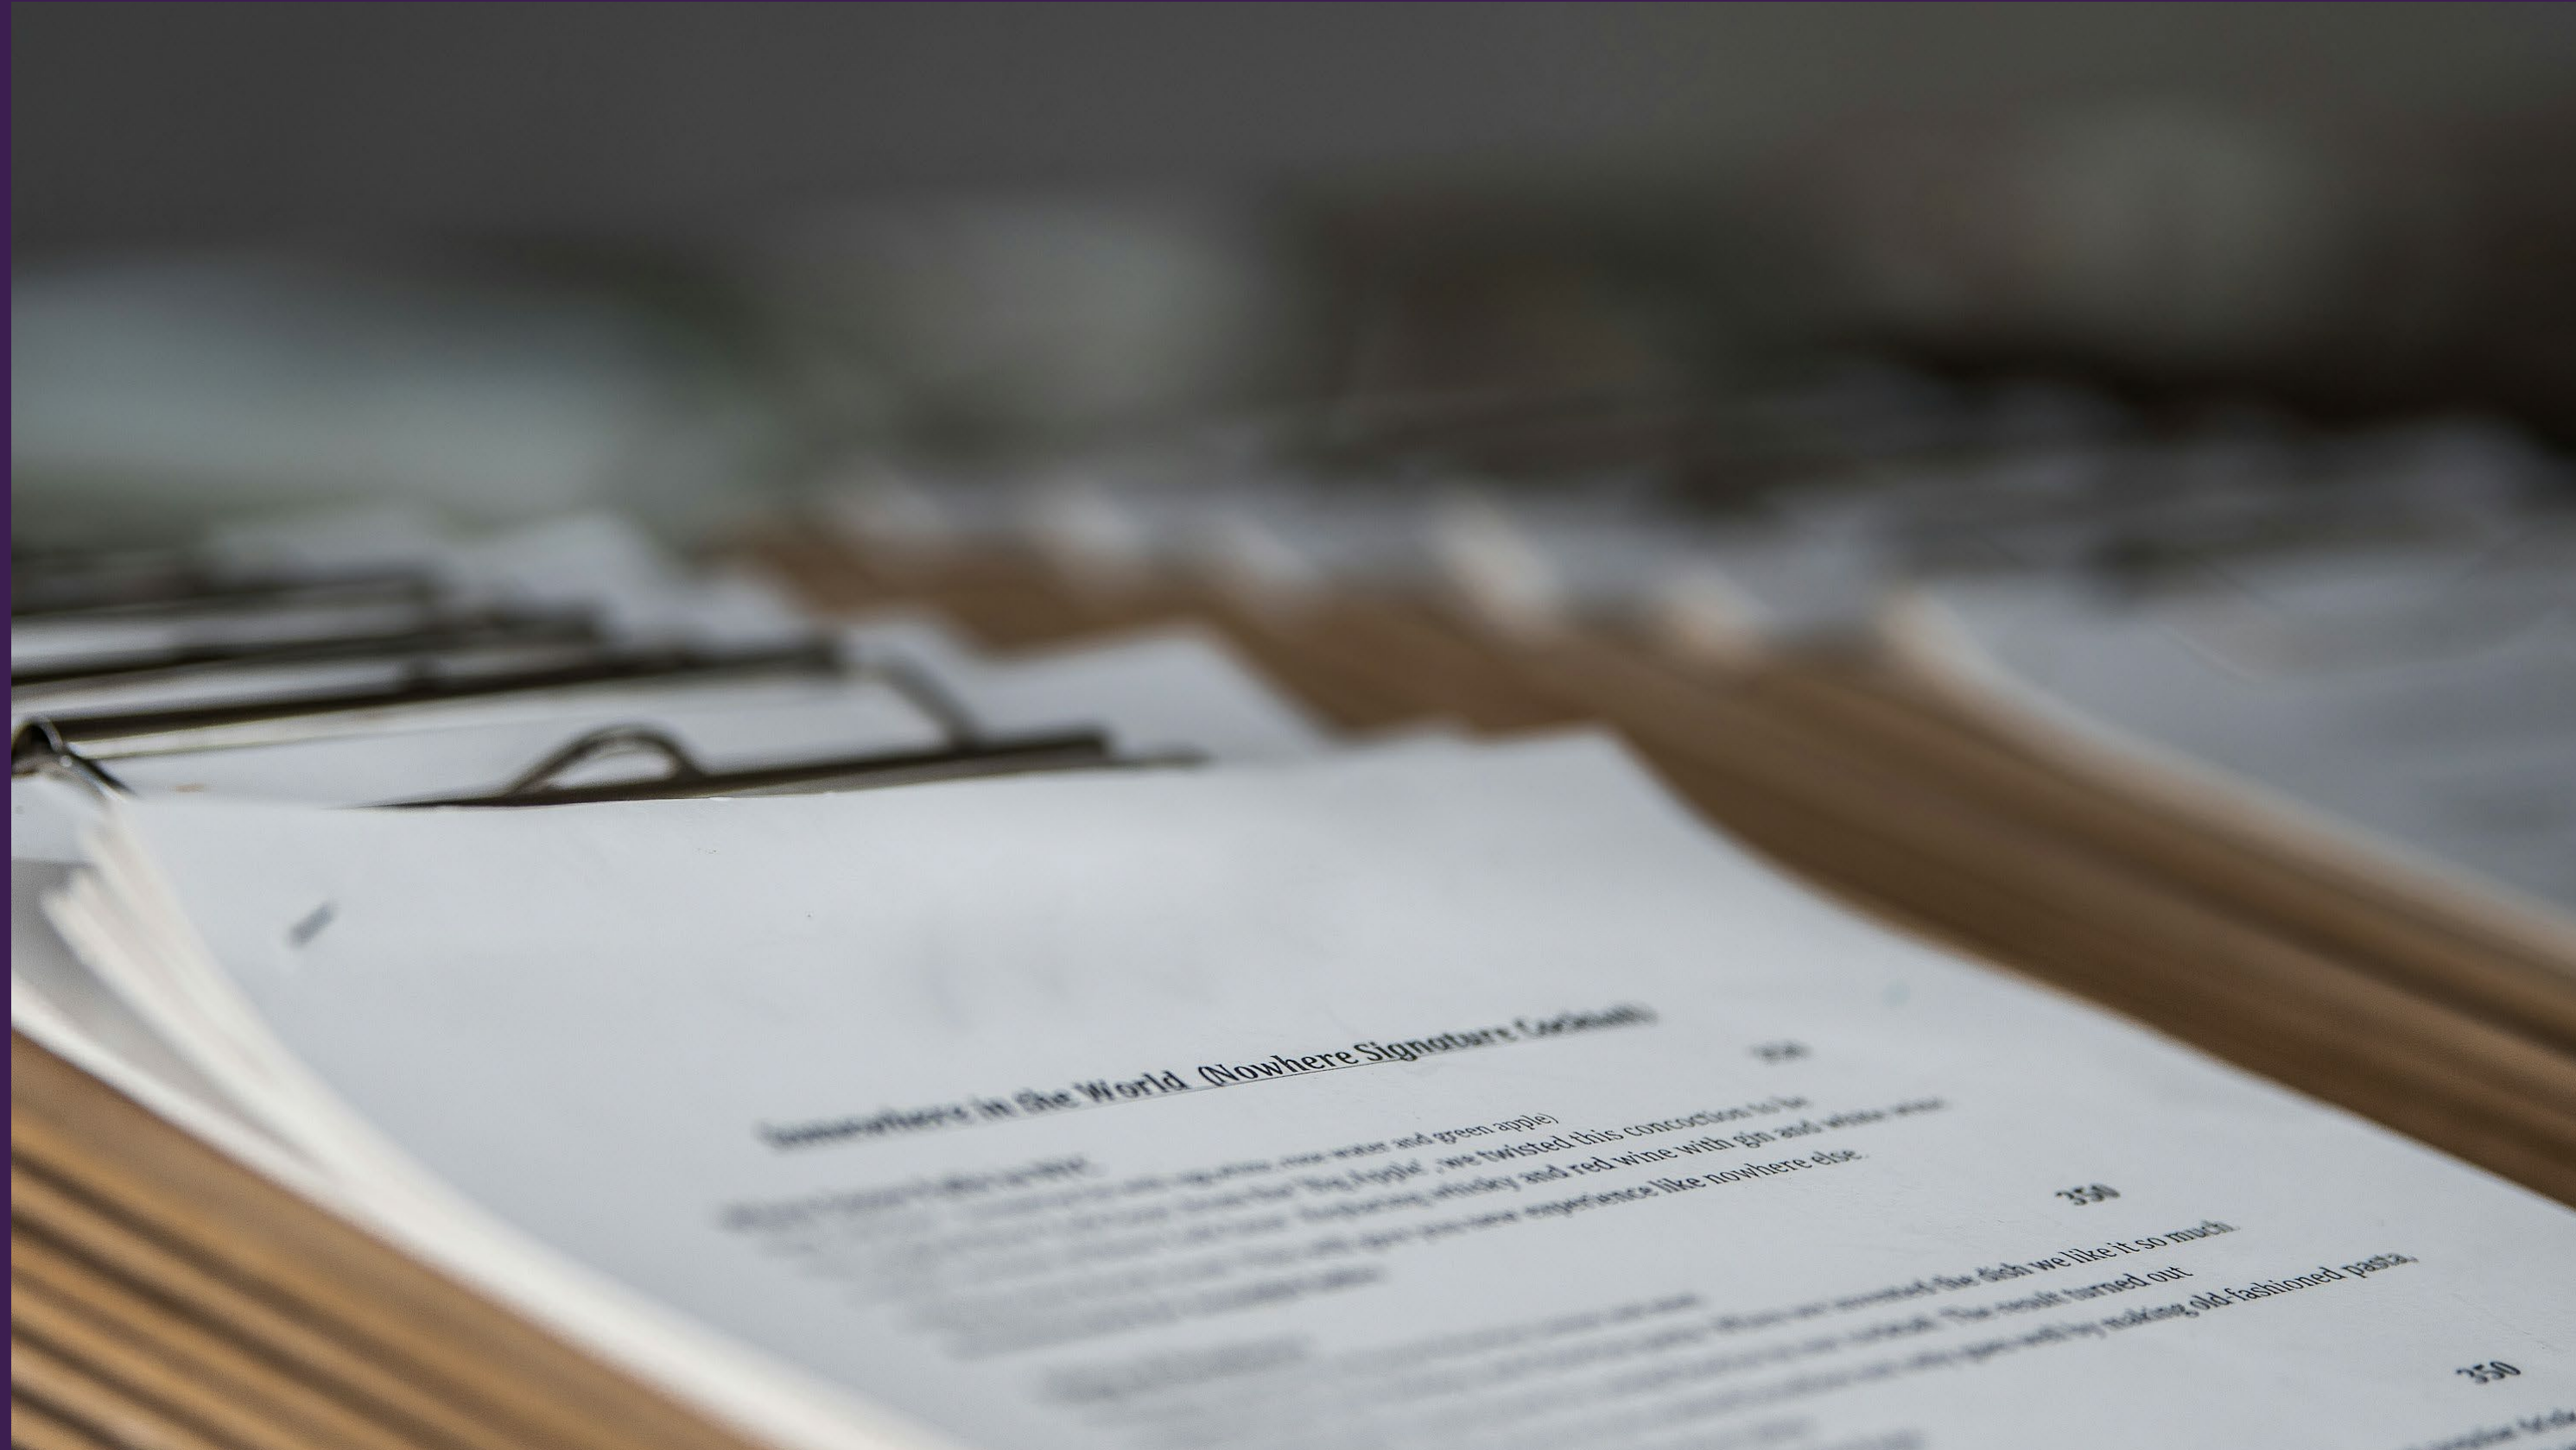

(4)

Focusing only on IT

(5)

Poor Documentation

(6)

Not having a clear plan

(7)

Not completing internal audits

(8)

Not running MRTs Meeting(s)

(9)

Not conducting training and awareness

(10)

Thinking the 'Cert' is the end of the story

Here's your 'Must Do' list

1. Secure commitment from top management.
2. Conduct a thorough risk assessment.
3. Develop and implement a comprehensive risk treatment plan.
4. Establish a strong documentation process.
5. Implement regular training and awareness programs.

Don't over complicate this...

It's about 'Continual Improvement'.
