Our experience

100% Success

We are leaders in our field, demonstrate a 100% success rate for certification to Risk, Sustainability, and Quality Standards over the last 18 years.

Over 600 Companies

At Blackmores we've worked with over 600 companies

20 Standards

We implement 20 ISO Standards covering Quality, Risk and Sustainability

27 Countries

Our credentials

As leaders in our field, we've established a commanding reputation for changing the face of how ISO standards are implemented globally.

Founders of isology® - 7 steps to implement any ISO Standard

Founders of the  **isologyhub** - Online membership with over 200+ ISO resources

Founders of the ISO Show Podcast

ISO Thought Leaders

We achieved an NPS rating of **97% client satisfaction** in 2023

The isology® hub is the leading place for businesses to learn how to achieve ISO Standards – and get gameplans for raising their game.

For those that need some extra guidance with their ISO 27001 transition, check out our ISO 27001 Transition Gameplan.

The ISO 27001 Transition Gameplan:

Our 7-Step Plan to Streamline Your Management System for ISO 27001:2022.

Workbooks packed with info to keep you on top of the revisions.

Time-saving templates to keep you on track.

Master the new controls with our 11 video tutorials

Additional ISO 27001:2022 resources available:

ISO 27001:2022 Transition Launch Plan

ISO 27001:2022 Statement of Applicability Template

ISO 27001:2022 Management Review template

ISO 27001 Transition – Annex A Controls Mapping

Training videos covering the 11 new controls:

- ✓ A.5.7 Threat Intelligence
- ✓ A.5.23 Information Security for Cloud Services
- ✓ A.5.30 ICT Readiness for Business Continuity
- ✓ A.7.4 Physical Security
- ✓ A.8.9 Configuration Management
- ✓ A.8.10 Information Deletion
- ✓ A.8.11 Data Masking
- ✓ A.8.12 Data Leakage Prevention
- ✓ A.8.16 Monitoring Activities
- ✓ A.8.23 Web Filtering
- ✓ A.8.28 Secure Coding

ISO 27001:2022 – what does this
mean to your Management System?

www.blackmoresuk.com

ISO 27001:2022 Deadline

Anyone with a current ISO 27001 certificate will have until **November 2025** to transition to the latest 2022 version.

What does this mean to your Management System?

- ISO 27001 has been updated, with several changes being added or merged to bring the standard up to date with changing technology and to simplify the use of the controls
- In addition to ensuring your compliance with latest Best Practice, the updated Standard is much more in line with modern technologies, and by reviewing the new Standard you may find security gaps that the previous version missed.

Blackmores

Why has the Standard changed?

www.blackmoresuk.com

Why has the Standard changed?

All ISO Standards go through regular reviews at planned intervals to ensure they are still applicable. This typically happens once every 7-8 years.

The last issue of ISO 27001 was in 2013 and since then IT technology and security has changed significantly causing some of the controls in 2013 to be uncomfortably out of date...

Blackmores

What's changed?

www.blackmoresuk.com

What's changed?

At a very high level the changes include 56 controls being merged into 24 newly titled controls and 11 completely new controls.

All controls have now been placed in 4 themed sections instead of the 14 control groups from the old standard; these are:

Organisational

People

Physical

Technological

What clauses have been changed?

A number of clauses have been updated, including:

- 4.2 Understanding the needs and expectations of Interested parties
- 4.4 Information Security Management System
- 5.1 Leadership
- 6.1.3 Information Security Risk Treatment
- 6.2 Information security objectives and planning to achieve them
- 6.3 Planning of Changes
- 9.3.2 Management Review Inputs

What clauses have been clarified further?

Further clarification has been added to the following clauses;

- 6.1.3 Information Security Risk Treatment – Statement of Applicability
- 7.4 Communication
- 8.1 Operational Planning and Control
- 9.1 Monitoring, measurement, analysis and evaluation
- 9.2.2 Internal Audit Programme

Attributes and Themes

Each control has also been aligned with Attributes and Themes which are intended to help organisations to align their management system with other security frameworks such as NIST or SOC;

These attributes include:

- Control Type
- Information Security Properties
- Cybersecurity Concepts
- Operational capabilities
- Security Domains

Blackmores

What are the 11 new controls?

www.blackmoresuk.com

ISO 27001:2022 New controls

Organisational Controls

- A.5.7 Threat intelligence
- A.5.23 Information security for use of cloud services
- A.5.30 ICT readiness for business continuity

ISO 27001:2022 New controls

Physical Controls

- A.7.4 Physical security monitoring

ISO 27001:2022 New controls

Technological Controls

- A.8.9 Configuration management
- A.8.10 Information deletion
- A.8.11 Data masking
- A.8.12 Data leakage prevention
- A.8.16 Monitoring activities
- A.8.23 Web filtering
- A.8.28 Secure coding
