

Aerospace Apprenticeship Program

Your path to becoming an AS9100 Lead Auditor

**PERRY JOHNSON
REGISTRARS, INC.**

Your leading U.S. registrar for training new lead auditors!

Retiring soon?

Thinking of a change in career or a second career?

Perry Johnson Registrars is the industry leader in Aerospace Apprenticeship training programs. We have more ISO 9001 audits available for training throughout the United States than any other certification body. This simplifies achieving the required 15 audit days in full QMS audits to become an Aerospace Lead Auditor!

Apprenticeship training is the key to our success – and puts us ahead of the curve in scheme-specific auditor development! If you have 5 years of full-time work experience in the aerospace industry within the last 8 years in engineering, manufacturing, design, quality assurance or process control, this may be ideal for you!

Advantages of Our Apprenticeship Program

- Dedicated recruiting and training team works with you on your path to success.
- We will guide you all the way through the IAQG Authentication Level 1 application process.
- World-class scheduling team with over 20 years of industry experience.
- We will pre-pay your travel (airfare, car rental, and hotel), saving you up-front, out-of-pocket expenses.
- Extensive training, both on site and virtually.
- Increase your earning potential as you gain experience!
- Have the freedom to choose which assignments you want!
